

What Youth Soccer Has Meant To Me

Youth soccer has meant many things to me. It started a very long and successful 13 years of playing soccer and in those 13 years I have been all over the United States playing with some of the best kids that their state has ever seen. Soccer has showed me leadership qualities that take some people years to find and understand much less put them into perspective for themselves. I do not know where I would be right now if I have not played soccer at an early age. It has also showed me how to be responsible. For every game I had to have many things in my bag to be able to play and if I did not have them I would not have been able to play in the game that day. And if I did not play in a game that day there is no telling what kind of things that I could of got my self into including drugs. That is one of the main things that soccer has showed me. To stay off of drugs because I know what they would do to my body and I could not perform to the top of my ability if I participated in any kind of drugs. So youth soccer has meant a great deal much to me. As you can see it influenced my whole life and what has gone on in it. So you could say youth soccer has meant the difference between life and death.
